

Next Generation 9-1-1 Task Force Report for GIS Council, December 2019

- The State's NG9-1-1 GIS Task Force is making strides on the necessary steps required for Outreach, Technical and Policy.
- That CalOES is getting things inline to release guidelines for County/City funding for address reconciliation. With option to select State Vendor, by submitting a scope of work to the state. Another option to Hire vendor on your own, reimbursed by the state up-to a certain amount with prior approval from CalOES. Details to follow in the next few week.
- CalOES' project to create a 'Next Gen 911 dataset' Data requests have been sent out to Counties & Cleaning/reconciliation is being completed by DDTI, which sent a survey regarding the previously submitted data.
- That CalOES is doing a 'road show' about NG911 for Public Safety answering points.
