

## NG9-1-1 Working Group – California GIS Council

- Cal OES needs your local data and your data will be used to inform the NG9-1-1 GIS data (see workflow).
- The format should be in Esri format
- The procedure for sharing data is uploading the GIS data to GeoComm's GIS Data Hub
- Funding Available from CalOES for County Jurisdictions Please contact Natasha at CalOES [Natasha.Potter@CalOES.ca.gov](mailto:Natasha.Potter@CalOES.ca.gov) for information.
- Report from National Address Dataset Working Group:
  - New publication of included states (not California yet)
  - Discussion on getting rid of NAD and pushing States to utilize the NENA (Next Generation 9-1-1) GIS Data Standards.
- Report from URISA NG9-1-1 Working Group:
  - Addressing/NG911 Conference Proposed – Discussions to support local addressing authorities more in 'best practices'.
  - Webinars Upcoming and some past webinars are available on URISA's YouTube/Website.
