

NAPSG Foundation Resources

Presentation for the California Geographic Information Association

Paul J Doherty

May 29th, 2019

National Alliance for Public Safety GIS (NAPSG) Foundation

napsfoundation.org | [@napsfoundation](https://twitter.com/napsfoundation)

Agenda

- Who is the National Alliance for Public Safety GIS (NAPSG) Foundation?
- What resources are available for you to use?
- How can you get involved?

Who is the NAPSG Foundation?

About NAPSG Foundation

Our Vision

A Nation of emergency responders and leaders equipped with the knowledge and skills in applying technology and data to change the outcome for survivors.

- 501(c)(3) Non-profit organization established in 2005
- +20,000 member network: Public Safety leaders, first responders, and GIS practitioners
- Board of Directors comprised of public safety & emergency management industry leaders

ICMA

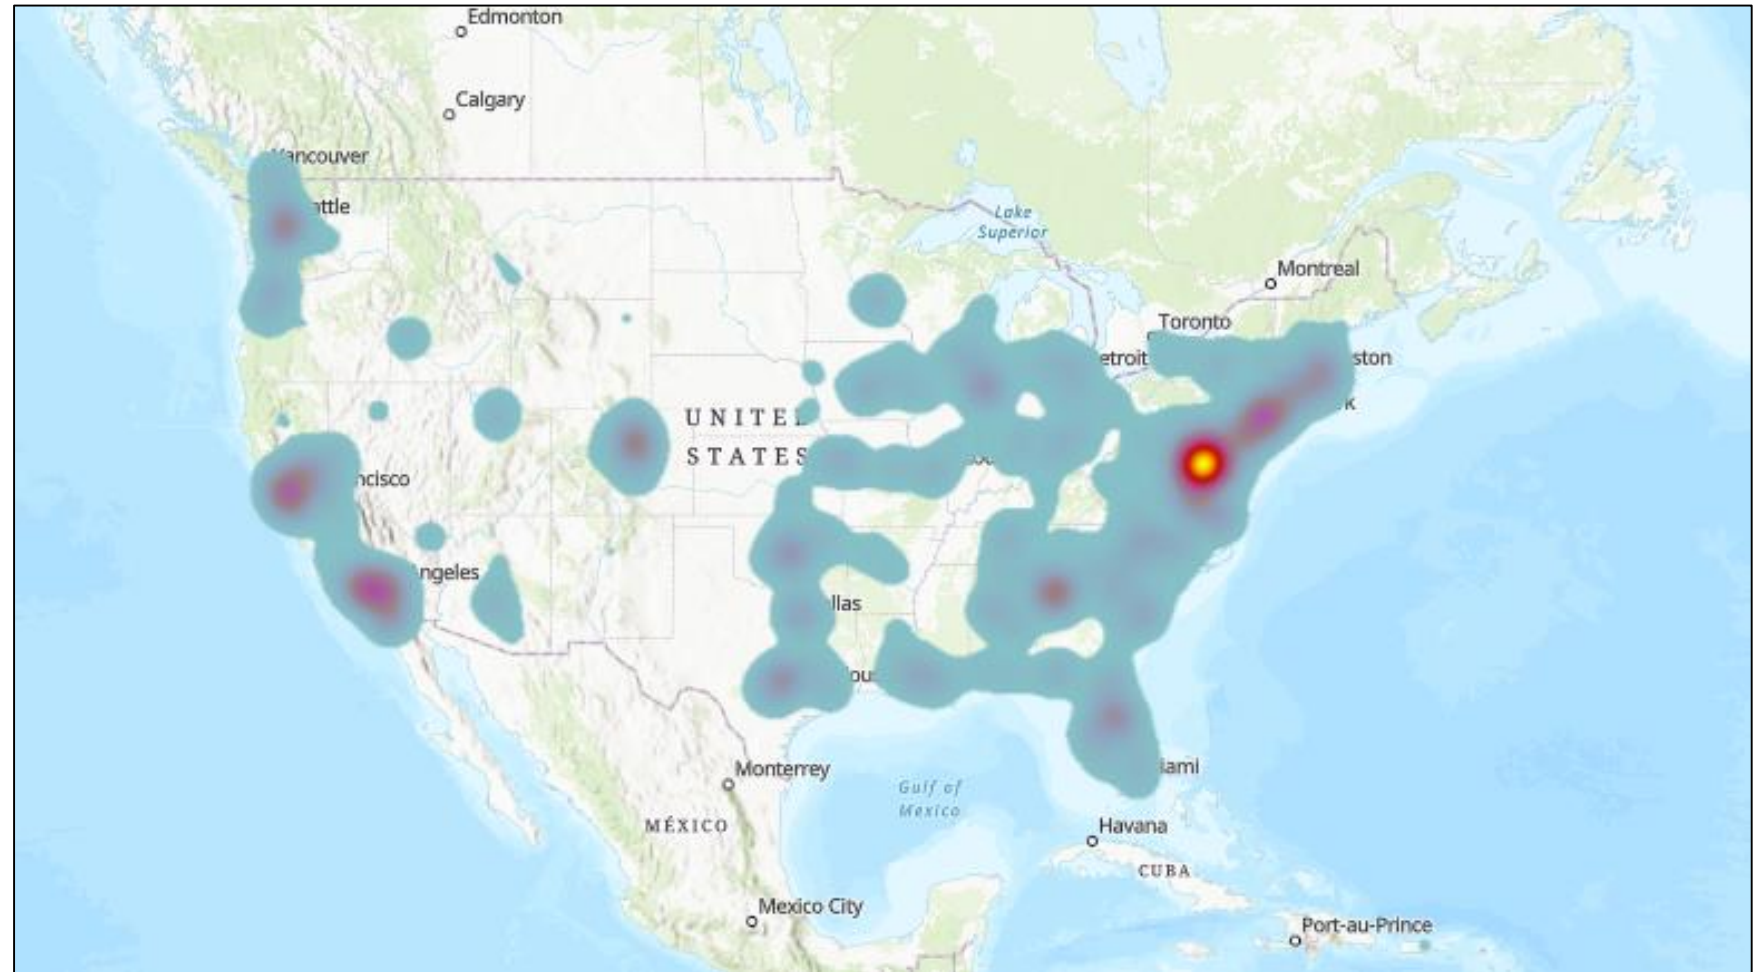

NACCHO
National Association of County & City Health Officials
The National Connection for Local Public Health

Local Focus – National Reach

- 20,000+ member network
- 12 primary national & international associations
- All Disciplines
- All levels of government
- Private sector

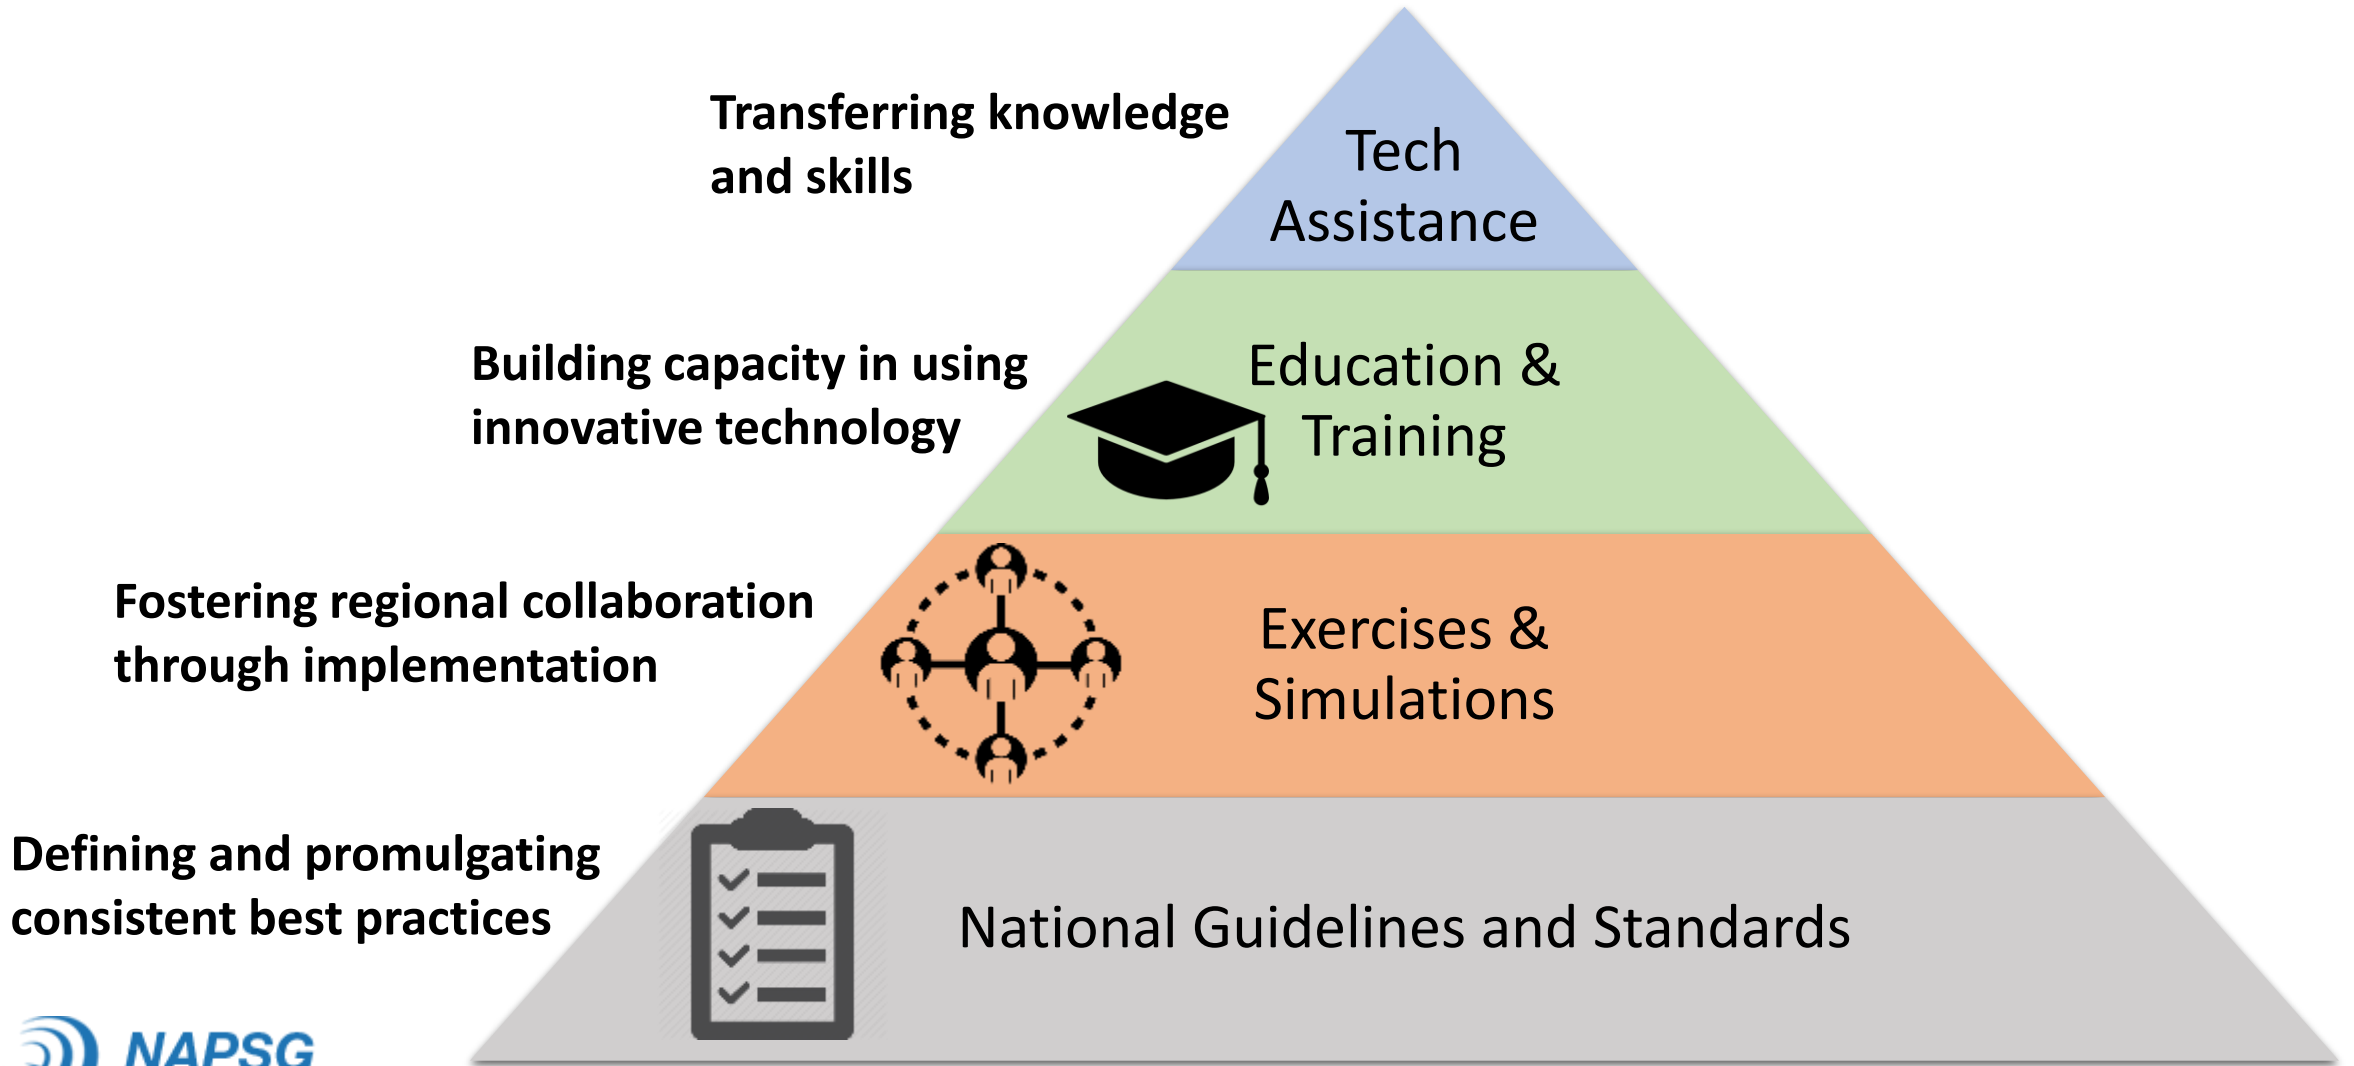

From Preparedness through Response and into Recovery

First Responders, Operators, and Decision Makers have access to and know how to use the **right actionable information at the right time.**

How Do We Do It

RESOURCES

Welcome to NAPSG's Resource Library. Here you can access all of the key resources that NAPSG makes available to the community at no cost, to support you and your agency in advancing the use of location-enabled decision support tools.

The Resource Library is organized by resource category. Simply click on the Category of interest and begin exploring available resources. You can also search for resources by entering-in a keyword into the search box in the upper right hand side.

Sentinel-2 Views
Imagery Layer by esri
Sentinel-2, 10m Multispectral, Multitemporal, 13-band images with visual renderings and indices. This Imagery Layer is sourced from the Sentinel-2 on AWS collections and is updated daily with new imagery. This layer is in beta release.
Created: May 2, 2018 Updated: Dec 19, 2018 View Count: 163,001
Living Atlas Subscriber

Active_Fire_Exposure
Feature Layer by FEMA_MAC
GeoMAC's Active Fire Extent enriched with Residential Parcels
Created: Aug 21, 2018 Updated: Aug 21, 2018 View Count: 111,684

USA Wildfire Activity
Map Image Layer by Esri
This layer presents recent wildfire activity for the United States, featuring data from GeoMAC. ArcGIS Online subscription required.

Demonstration – NAPSG Situational Awareness Viewer

The screenshot displays the NAPSG Situational Awareness Viewer interface. The main map shows Sacramento, CA, with a blue circular area highlighting a specific region. A popup window titled "NOAA Severe Thunderstorm Warning" is open, displaying the following text:

(1 of 2) NOAA Severe Thunderstorm Warning
Warning in effect from 5/29/2019, 9:14 AM to 5/29/2019, 9:45 AM, see [warning statement](#).
Zoom to

Below the popup, there are three buttons: "Pan to", "Add a marker", and "Set Location".

The interface includes a "Legend" panel on the right side, which lists various data layers and their symbols:

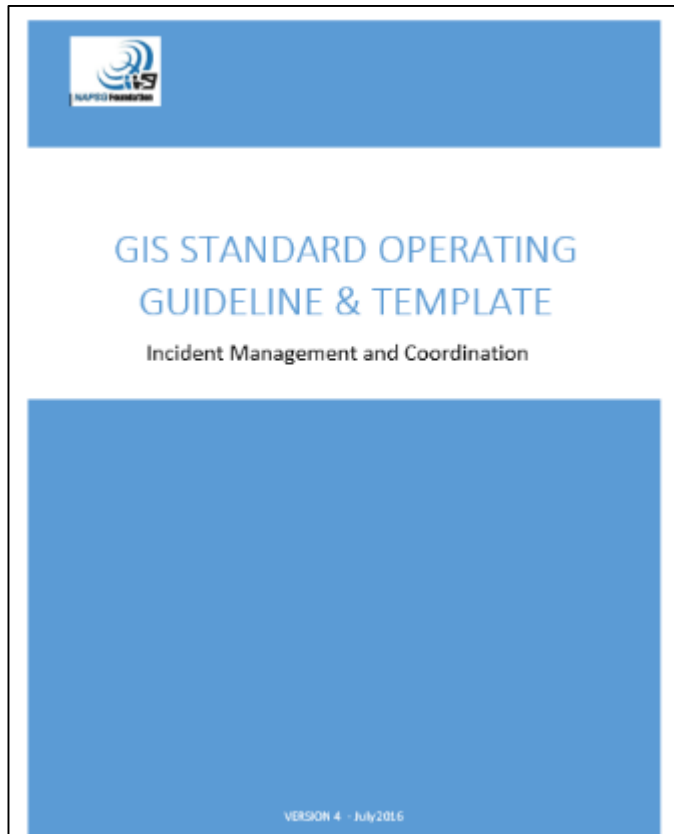

- Live Feed: Open Shelters (FEMA / Red Cross National Shelter System)
 - FEMA NSS - Open Shelters
- Live Feed - Storm Reports (NOAA)
 - NOAA TORNADO Storm Reports (24 hours)
- Live Feed: Action Level Stream Gauges (USGS)
 - Live Stream Gauges
 - Action Stage
 - Minor Flood
 - Moderate Flood
 - Major Flood
- Live Feed: USA Short-Term Weather Warnings
 - NOAA Severe Thunderstorm Warnings
 - NOAA Tornado Warnings
 - NOAA Flash Flood Warnings
 - NOAA Special Marine Warnings
- Live Feed: Long-Term Weather Warnings (NWS)
 - Event Severity Ordered by Size
 - Extreme Events
 - 911 Telephone Outage
 - Administrative Message

At the bottom of the interface, there is a table with the following data:

Category	COUNT
Incident	5
Demographics (13)	
Potential Shelters (6)	
Public Schools (1)	
Private Schools (3)	
Hospitals (1)	
Mobile Homes (0)	
Nursing Homes (5)

2018 Disaster Response Support

- In partnership with the IAFC, deployed the suite of SAR decision support and analysis toolkit
 - **Hurricane Michael**
 - 126 SAR Teams from 11 states
 - 51,532 Field Forms Submitted by 400+ Users
 - **Hurricane Florence**
 - 60 SAR Teams from 11 States
 - 2,600 Field Forms Submitted by 340+ Users

Crowdsourced Photo Map

<http://bit.ly/2018HurricanePhotos>

ESF9 – Geospatial Resource Call/List

Behind the Scenes: 2018 Hurricane Crowdsourced Story Map

The screenshot shows a mobile application interface for a Story Map. The top navigation bar is dark grey with the NAPSG Foundation logo on the left and the title '2018 Hurricanes Crowdsourced Pho...' on the right. A blue button labeled '+ Add a Photo' is positioned to the right of the title, followed by social media icons for Facebook, Twitter, and a link icon. The main content area is split into two panels. The left panel has a dark background and features the title 'Behind the Scenes: 2018 Hurricane Crowdsourced Story Map' in large white text. Below the title is a yellow link 'OPEN THE APP'. A vertical navigation bar on the far left contains a home icon at the top, a series of dots, and a downward-pointing chevron at the bottom. The text in this panel describes the collaboration between the NAPSG Foundation, GISCorps, and CEDR Digital during Hurricanes Michael and Florence in 2018. The right panel shows a satellite image of a hurricane with a semi-transparent white text box containing the title '2018 Hurricanes Crowdsourced Photos' and a descriptive paragraph: 'This is a Story Map for collecting and displaying 2018 Hurricane Crowdsourced Photos. Powered by the NAPSG Foundation, GISCorps, and CEDR Digital. Please add date, time, and source!'. A circular button with the text 'Explore Map' and a downward-pointing chevron is overlaid on the bottom right of the satellite image.

First Responders and SAR Geospatial Toolkit

First Responders and SAR Geospatial Toolkit

1 Introduction

What Is the First Responders and SAR Geospatial Toolkit?

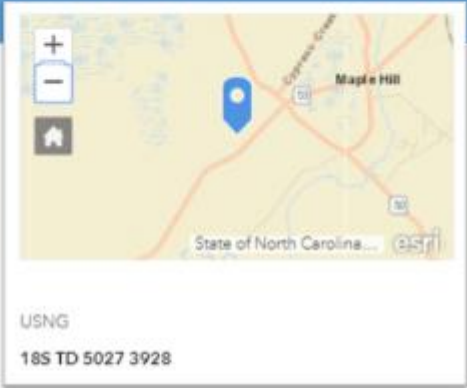

Use this Story Map template to adopt a *common geospatial framework* and train for disaster response search and rescue (SAR) missions. Interoperability between SAR teams is critical to response and recovery.

Next Steps

Each section below provides core geospatial capabilities

SAR / First Responder Geospatial Toolkit

NAPSG Search and Rescue Working Group

2 Common Language

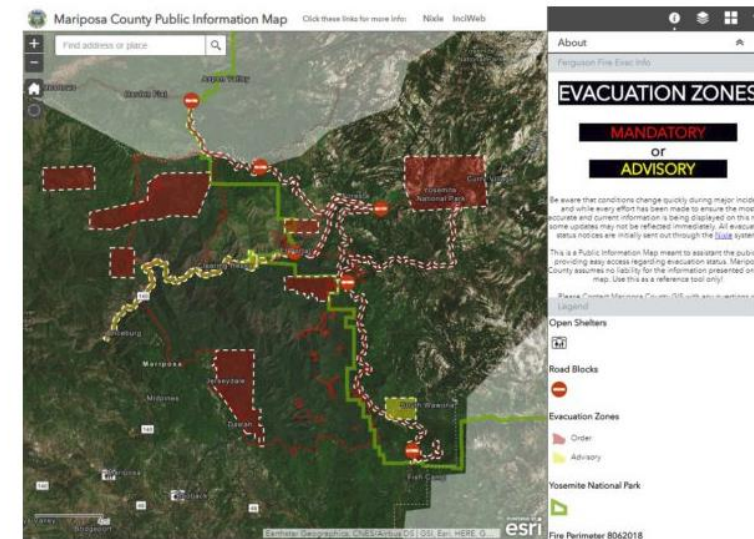

Core Information Needs for the Public

- Evacuation Notices
- Open Shelters
- Road Closures
- *Hazards?*

Everything else may be “extra” information that overwhelms the audience.

CORE INFORMATION NEEDS FOR THE PUBLIC DURING WILDFIRES

Wildfires increasingly impact populated areas across the West (see [InciWeb](#) for incident details and a quick map of all current incidents). NAPSG Foundation, in conjunction with the [Esri Disaster Response Program](#), has been supporting public safety agencies with best practices for Public Information Maps. This post is a synopsis provided to help agencies get better prepared before the next disaster strikes. The blog is focused on fire incidents, but the same principals apply to most types of disasters.

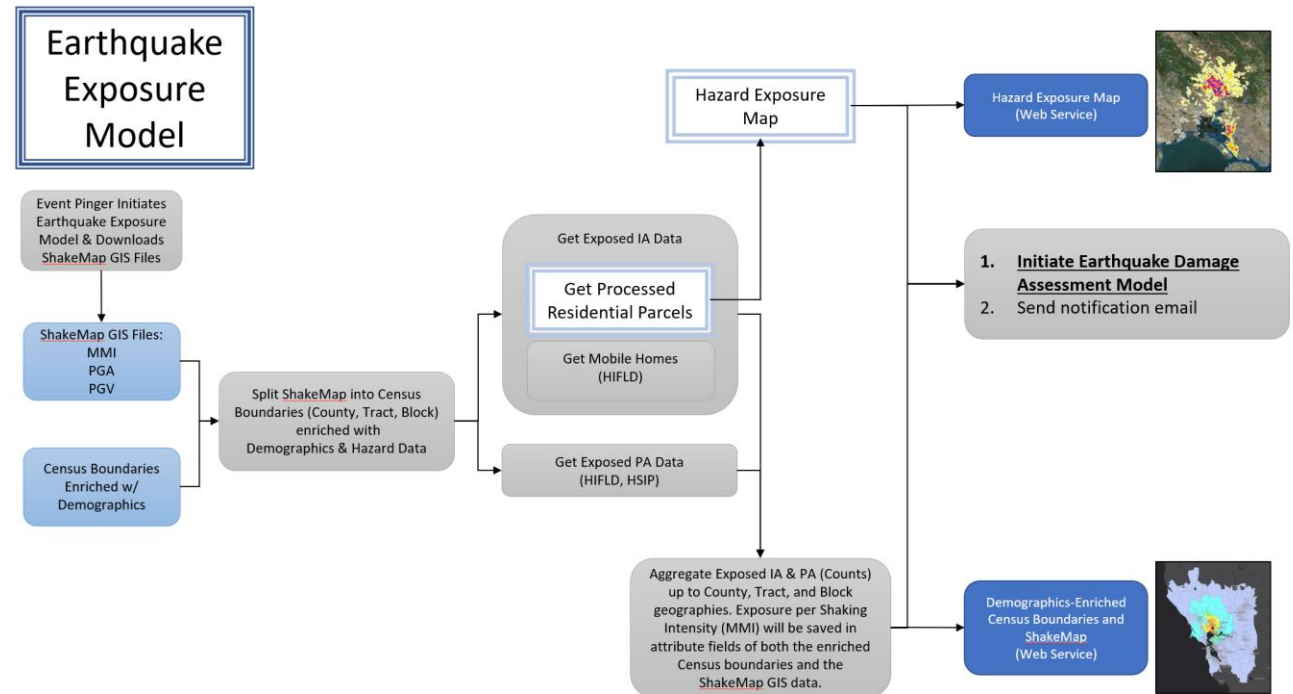

Screenshot of the Mariposa County Public Information Map on August 7th, 2018

The screenshot shows the NAPSG Foundation website. The header includes the NAPSG Foundation logo, social media icons for Facebook, Twitter, and YouTube, and a navigation menu with links for HOME, ABOUT US, WORK WITH US, RESOURCES, EVENTS, and NEWS. A large banner image of a flooded area contains the text: "ENHANCE YOUR GIS CAPABILITIES & PREPARE FOR THE UNKNOWN. GET STARTED TODAY". Below the banner is a blue bar with the text: "Enhancing public safety through the power of geospatial technology and data". The main content area is divided into three columns: "NAPSG RESOURCES" with links to "2018 Hurricane GIS Resources", "Symbology Guideline & Library", and "Capability & Readiness Assessment"; "RECENT EVENTS" with details for "Technology Innovation for Flood Preparedness & Operations Workshop (NCR Region)" and "NAPSG's Yosemite All-Hazards Region GIS Workshop"; and "BECOME A MEMBER" with a description of the organization and a "JOIN NOW" button. A red dashed arrow points from the "NAPSG's Yosemite All-Hazards Region GIS Workshop" event to the "Email Address*" input field in the "BECOME A MEMBER" section.

What is a GeoConOps?

- Story Map <https://arcg.is/0njXi>

The screenshot shows a Story Map interface. At the top, a map of the Moriches area is visible with labels for Mastic, Center Moriches, East Moriches, Remsenburg, Beach, and West Hampton Dunes. A grey box with the title "What is a GeoConOps?" is overlaid on the map. Below the map, a text block reads: "In order to produce geospatial decision support tools that help our audience solve problems, we need a geospatial game plan that addresses the essential elements of information (EEI). If we are working across organizations and regions, this must be identified in advance of the disaster." Below the text is a diagram consisting of a semi-circle with an arrow pointing right, containing a row of five 'X' marks above a row of five 'O' marks, with another arrow pointing right from the bottom right.

Thank you!
